Rabigh, Saudi Arabia

We have reviewed the accompanying interim balance sheet of Rabigh Refining & Petrochemicals Company (the Company) as at 30 June 2008 and the related interim statements of income and cash flows for the three-month and six-months periods then ended and the attached condensed notes from 1 to 12 which form an integral part of these interim condensed financial statements. These interim condensed financial statements are the responsibility of the Company's management and have been prepared by them and submitted to us together with all the information and explanations which we required. Our responsibility is to express a conclusion on these interim condensed financial statements based on our review.

We conducted our review in accordance with auditing standard on interim financial reporting issued by the Saudi Organization for Certified Public Accountants. A review is limited primarily to analytical procedures applied to financial data and inquiries of Company personnel responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying interim condensed financial statements for them to be in conformity with accounting standards generally accepted in the Kingdom of Saudi Arabia appropriate to the circumstances of the Company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying interim condensed financial statements have been prepared in accordance with the Standard for Interim Financial Information issued by the Saudi Organization for Certified Public Accountants (SOCPA). The accounting policies adopted by the Company for the preparation of these interim condensed financial statements are consistent with those used for the preparation of the annual financial statements. Significant accounting policies adopted by the Company are summarized as follow:

(a) Basis of preparation

The interim condensed financial statements, expressed in Saudi Arabian Riyals, are prepared under the historical cost basis, using the accrual basis of accounting and the going concern concept.

The accompanying interim condensed financial statements include all adjustments comprising mainly of normal recurring accruals considered necessary by the Company's management to present a fair statement of financial position, results of operations and cash flows. These interim condensed financial statements should be read in conjunction with the annual audited financial statements of the Company for the year ended December 31, 2007.

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

8. SHARE CAPITAL, STATUTORY RESERVE AND DIVIDENDS

The Company's share capital of SR 8.76 billion at 30 June 2008 (2007: SR 6.57 billion) consists of 876 million fully paid and issued shares of SR 10 each (2007: 657 million shares of SR 10 each).

The proceeds of the IPO issue of new shares at SR 21 per share have resulted in a share premium amount of SR 2,409 million, which has been transferred to Statutory Reserve in accordance with the Company's Articles of Association.

The Board of Directors has approved the implementation and operation of an Employee Share Ownership Plan ("ESOP"), which provides 5-year service awards to certain levels of staff.

In anticipation of this plan coming into force, the Company arranged for a commercial bank to subscribe for 1.5 million shares during the IPO at the offer price of SR 21 per share. These "ESOP shares" are held by the bank in trust for the staff who will become eligible for an award under the plan. Any of the ESOP shares that do not become issuable to eligible employees will be dealt with by the bank in accordance with PetroRabigh's instructions, and any disposal proceeds will be for the account of the Company.

The directors do not recommend the payment of any interim dividend, as the Company has not yet commenced its commercial operations.

9. LOSS PER SHARE

Loss per share for the six-months period ended 30 June 2008 is computed by dividing the net loss for such period by the weighted-average number of ordinary shares outstanding during the six-month period ended 30 June 2008 of 849 million shares (2007: 516 million shares).

10. CONTINGENCIES AND COMMITMENTS

Marine Terminal Lease

The Company entered into a marine terminal lease agreement for a period of 30 years with one of its founding shareholders, Saudi Arabian Oil Company ("Saudi Aramco"), on March 2, 2006. The agreement grants the Company certain exclusive rights in respect of the Rabigh Terminal Facilities and the Rabigh Terminal Site.

10. CONTINGENCIES AND COMMITMENTS (continued)

In consideration for the grant by Saudi Aramco to the Company of the right to occupy and use the site and facilities, the Company shall pay to Saudi Aramco rent in an amount equal to USD 0.27 per square meter per annum for approximately 682,000 square meters of Rabigh Terminal Site and USD 5,100,000 per annum for the Rabigh Terminal Facilities from the date the Rabigh Refinery is transferred to the Company. At present, it is expected that this transfer will occur during the last quarter of year 2008.

Rabigh Refinery Complex Lease

In consideration further for the grant by Saudi Aramco to the Company of the right to access, occupy and use of the Rabigh Complex Site covering for approximately 21,000,000 square meters, the Company shall pay to Saudi Aramco rent in an amount equal to USD 0.27 per square meter per annum starting from Rabigh Refinery transfer date.

Operating Leases

The Company has entered into operating leases for office space and furniture, vehicles and living quarters.

11. ZAKAT ADDITIONAL ASSESSMENT

Following its review of the Company's Zakat declaration for 2006, the DZIT issued a deficiency tax assessment on December 4, 2007 amounting to approximately SAR 25 million. The Company is not in agreement with the DZIT assessment, and filed a preliminary objection with the DZIT on February 2, 2008. DZIT requested additional documents and the company is in the process of collating these documents.

Management believes its position regarding the DZIT adjustments to be robust in the area of interpretation, and that it is too soon to be able to estimate a probable settlement amount. Any settlement amount eventually agreed with DZIT will not impact upon the future earnings of the Company, as it will be recoverable from a founding shareholder - Saudi Arabian Oil Company.
