

<b>SAFETY DATA SHEET</b>		PR/EOHD/OHS/F-310	 بترو رابغ Petro Rabigh
<b>PRODUCT NAME : LOW DENSITY POLYETHYLENE</b>			
Reference No. SDS-09-0040	Revision No. 1.4 January 8, 2019	Page 1 of 9	

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product Identifier	
Product Name:	Low Density Polyethylene
Other/Generic Names:	LDPE
Grades:	L705, G201, F210-3 E1970, M1920, F2325S
REACH Registration Number:	Not applicable
EC Number:	None
CAS Number:	9002-88-4
Molecular formula:	-
Molecular Structure:	
Molecular weight range:	-

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

<p><b>IDENTIFIED USES:</b> Plastic moulding Extruding</p> <p><b>MOST COMMON TECHNICAL FUNCTION OF SUBSTANCE (WHAT IT DOES):</b> Construction, automotive, kitchen products</p> <p><b>USES BY CONSUMERS ADVISED AGAINST</b> Final product.</p>
---

### 1.3 Manufacturer or supplier's details

Manufacturer	Rabigh Refining and Petrochemical Company		
Address	<p><b>PLANT</b> PO Box 101, Rabigh 21911, Kingdom of Saudi Arabia</p> <p>Tel: +966 12 425 0390 Free Number: 800 440 9000</p>		
E-mail address of person responsible for this SDS	<a href="mailto:stephane.dallaire@petrorabigh.com">stephane.dallaire@petrorabigh.com</a>		
Emergency telephone numbers (24-hour)	Asia Pacific (except China):	CareChem 24 +65 3158 1074	English, Cantonese, Indonesian, Japanese, Korean, Malay, Mandarin, Thai, Vietnamese
	China (Off-land):	CareChem 24 +86 512 8090 3042	English, Mandarin
	US, Canada: Outside above area:	ChemTrec 1-800-424-9300 +703-527-3887	English
	Europe, America, Middle East, Africa (Europe & English Speaking):	CareChem 24 +44 (0) 1235 239 670	English, Albanian, Bulgarian, Czech, Danish, Dutch, Finnish, French, German, Greek, Hungarian, Italian, Lithuanian, Norwegian, Polish, Portuguese, Romanian, Russian, Serb-Croat, Slovak, Spanish, Swedish, Turkish, Ukrainian
	Middle East & Africa (Arabic speaking):	CareChem 24 +44 (0) 1235 239 671	English, Arabic, French

## SECTION 2: Hazards Identification

### 2.1 Classification of the substance or mixture

Product Definition:	Low Density Polyethylene
Classification according to Directive 67/548/EEC [DSD]:	This substance is not classified as dangerous according to this Directive.

<b>SAFETY DATA SHEET</b>		PR/EOHD/OHS/F-310	 بترو رابغ Petro Rabigh
<b>PRODUCT NAME : LOW DENSITY POLYETHYLENE</b>			
Reference No. SDS-09-0040	Revision No. 1.4 January 8, 2019	Page 2 of 9	

<b>2.2 Label elements</b>	
<b>Hazard pictograms (Labelling according Regulation (EC) No 1272/2008):</b>	Not a hazardous substance or mixture according to this Regulation.
<b>Signal word:</b>	Notice
<b>Hazard statements:</b>	Not applicable
<b>Precautionary statements</b>	<p><b>Prevention:</b> Not applicable</p> <p><b>Response:</b> Not applicable</p> <p><b>Storage:</b> Not applicable</p> <p><b>Disposal:</b> Not applicable.</p>
<b>Special packaging requirements</b>	
<b>Containers to be fitted with child-resistant fastenings:</b>	Not applicable
<b>Tactile warning of danger:</b>	Not applicable
<b>2.3 Other hazards</b>	
<b>Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII:</b>	Not applicable
<b>Substance meets the criteria for vpvB according to Regulation (EC) No. 1907/2006, Annex XIII:</b>	Not applicable
<b>Other hazards which do not result in classification:</b>	This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

## SECTION 3: Composition/information on ingredients

<b>3.1 Classification of the substance or mixture</b>					
Substance/mixture					
Product / Ingredient name	Identifiers	Wt%	Classification		
			Directive 1999/45/EC	Regulation (EC) No. 1272/2008 [CLP/GHS]	Type
Ethylene Homo-Polymer	EC: Not provided CAS: 9002-88-4	>97.0%	This substance is not classified as dangerous	Not a hazardous substance	[A]
Additives	Not available	0-3.0%	This substance is not classified as dangerous	Not a hazardous substance	[C]

There are no additional ingredients present which, within the current knowledge of the supplier, are classified and contribute to the classification of the substance and hence require reporting in this section.

### Type

[A] Constituent; [B] Impurity; [C] Stabilizing additive; Occupational exposure limits, if available, are listed in Section 8.

## SECTION 4: First aid measures

<b>4.1 Description of first aid measures</b>	
<b>Inhalation</b>	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Administer oxygen if breathing is difficult. Apply artificial respiration if victim is not breathing. Rinse nose, mouth and throat with water. Keep victim warm with a blanket etc. Get immediate medical advice/attention. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs.
<b>Skin contact</b>	Remove/take off immediately contaminated clothing and shoes. Gently wash with plenty of soap and water. If skin irritation or rash occurs: Get medical advice/attention. Burns (in contact with molten product or heated product): Immediately immerse in large amount of cold water, or flush with large amounts of water the affected area to dissipate heat. While flushing, remove clothes which do not adhere to affected area. Cover with clean cotton sheeting or gauze. Get immediate medical advice/attention.
<b>Eye contact</b>	Do not rub eye. Hold eyelids apart. Begin to rinse with water as soon as possible and rinse cautiously for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get immediate medical advice/attention. Burns (in contact with molten product or heated product) : Immediately immerse in large amount of cold water, or flush with large amounts of water the affected area to dissipate heat.
<b>Ingestion</b>	Rinse mouth. Remove victim to fresh air and keep at rest in a position comfortable for breathing. Keep victim warm with a blanket etc. Get immediate medical advice/attention. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. Administer oxygen if breathing is difficult. Apply artificial respiration if victim is not breathing.

<b>SAFETY DATA SHEET</b>		PR/EOHD/OHS/F-310	 بترو رابغ Petro Rabigh
<b>PRODUCT NAME : LOW DENSITY POLYETHYLENE</b>			
Reference No. SDS-09-0040	Revision No. 1.4 January 8, 2019	Page 3 of 9	

<b>Protection of first-aiders</b>	Use personal protective equipment as required.
<b>4.2 Most important symptoms and effects, both acute and delayed</b>	
<b>Potential acute and delayed health effects</b>	
<b>Inhalation</b>	Irritation of nasal and pharyngeal mucosae.
<b>Skin contact</b>	Mild skin irritation. Refer to section 2.2
<b>Eye contact</b>	Mild eye irritation. Refer to section 2.2
<b>Ingestion</b>	Ingestion (If swallowed): Vomiting .
<b>Over-exposure signs/symptoms</b>	
<b>Eye contact</b>	No specific data available
<b>Inhalation</b>	No specific data available
<b>Skin contact</b>	No specific data available
<b>Ingestion</b>	No specific data available
<b>4.3 Indication of any immediate medical attention and special treatment needed</b>	
<b>Notes to physician</b>	Treat symptomatically. Contact poison treatment specialist immediately if eyes were exposed to large quantities or large quantities have been ingested or inhaled. Use PPE such as gloves, goggles and masks.
<b>Specific treatments</b>	No specific information

<b>SECTION 5: Firefighting measures</b>	
<b>5.1 Extinguishing media</b>	
<b>Suitable extinguishing media</b>	Small fires: Dry chemical powder, carbon dioxide, water spray, regular foam Large fires: Water spray, fog, regular foam Surrounding fires: Appropriate extinguishing media.
<b>Unsuitable extinguishing media</b>	High pressure water streams.
<b>5.2 Special hazards arising from the substance of mixture</b>	
<b>Hazards from the substance or mixture</b>	For large fires, withdraw from fire area and let fire burn. Contact may cause burns to skin and eyes. Containers may explode when heated. Runoff and fire-control water may pollute waterways. Risk of fire and explosion on contact with incompatible material(s).
<b>Hazardous thermal decomposition products</b>	Fumes produced when heated to decomposition temperatures may contain carbon monoxide, carbon dioxide, oxides of nitrogen, and small amounts of aromatic and aliphatic hydrocarbons. Combustion products from rubber, like those of other natural/synthetic materials, must be considered toxic.
<b>5.3 Advice for firefighters</b>	
<b>Special protective actions for fire-fighting</b>	If possible, fight fire from protected position. Keep upwind. Keep unauthorized personnel away. If possible, remove containers exposed to heat or cool with water. Do not scatter spilled material with high pressure water streams. Dike fire water for later disposal; do not spread the material. Do not get water inside container or in contact with the material. Prepare appropriate extinguishing agent. (See "5. Fire-fighting measures"). For large spill, consider initial downwind evacuation for proper distance. Prevent dust cloud or/and dust accumulation.
<b>Specific protective equipment for fire-fighting</b>	Wear regional, national, and local standards approved fire fighting turnout gear and positive pressure self-contained breathing apparatus (SCBA). Structural firefighters' protective clothing will only provide limited protection from heat, and may not provide adequate protection from the harmful vapors or liquids.

<b>SECTION 6: Accidental release measure</b>	
<b>6.1 Personal precautions, protective equipment and emergency procedures</b>	
<b>For non-emergency personnel</b>	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing dust. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
<b>For emergency responders</b>	Wear appropriate protective equipment. Use personal protection recommended in "8. Exposure control/personal protection". Keep unauthorized personnel away. Isolate spill or leak area for proper distance in all directions. Provide adequate ventilation. Keep upwind. Do not touch or walk through spilled material.
<b>6.2 Environmental precautions</b>	
Prevent entry spilled material and runoff from spillage control into waterways, sewers, basements or confined areas. Avoid release to the environment.	

<b>SAFETY DATA SHEET</b>		PR/EOHD/OHS/F-310	 بترو رابغ Petro Rabigh
<b>PRODUCT NAME : LOW DENSITY POLYETHYLENE</b>			
Reference No. SDS-09-0040	Revision No. 1.4 January 8, 2019	Page 4 of 9	

<b>6.3 Methods and materials for containment and cleaning up</b>	
<b>Small spill</b>	Stop leak if without risk. Move containers from spill area. Mop up and place in an appropriate and properly labeled waste disposal container. Dispose of via a licensed waste disposal contractor.
<b>Large spill</b>	Stop leak if without risk. Consider initial downwind evacuation for proper distance. ELIMINATE all ignition sources such as heat/sparks/open flames/hot surfaces/static discharges. Consult an expert. Use explosion-proof electrical equipment and lighting. Stop leak if possible without any risk. Use clean non-sparking tools. Collect scattered product into sealable containers. Collect fine substance by dust explosion-proof cleaner to prevent scatter. Moist particle solid at first to prevent scattering if appropriate. See "13. Disposal considerations".
<b>6.4 Reference to other sections</b>	
See Section 1 for emergency contact information. See Section 8 for information on appropriate personal protective equipment. See Section 13 for additional waste treatment information.	

<b>SECTION 7: Handling and storage</b>	
<i>The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).</i>	
<b>7.1 Precautions for safe handling</b>	
<b>Protective measures</b>	Use only outdoors or in a well-ventilated area or ventilate by appropriate methods. Do not breath powder, dust, shavings, borings, turnings or cuttings. As fine particle and powder generated by pneumatic conveying, shavings and turnings are dust explosive, take the following precautionary measures: Prevent dust cloud and dust accumulation. If above mentioned precautions are impossible, consult expert of a specialized company.
<b>Advice on general occupational hygiene</b>	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
<b>7.2 Conditions for safe storage, including any incompatibilities</b>	
No smoking. Keep containers tightly closed. Well ventilate by proper manner according to regional, national and local regulations. Protect against direct sunlight. Store in a dry place. Keep in a fire-proof designed place. Keep away from incompatible materials. See "10. Stability and reactivity". Keep away from food and feedstuffs. Store locked up. All containers shall be properly labeled.	
<b>7.3 Specific end use(s)</b>	
<b>Recommendations</b>	Ventilate by appropriate method. (See "8. Exposure control/personal protection"). Install appropriate equipment and wear appropriate protective clothing. (See "8. Exposure control/personal protection") Use personal protective equipment as required. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wash hands and face thoroughly after handling. Eating, drinking and smoking in work areas is prohibited. Contaminated work clothing should not be allowed out of the workplace.
<b>Industrial sector specific solutions</b>	No specific information available.

<b>SECTION 8: Exposure controls/personal protection</b>				
<i>The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).</i>				
<b>8.1 Control parameters</b>				
<u>Occupational exposure limits</u>				
<b>Substance</b>	<b>Form</b>	<b>TWA</b>	<b>STEL</b>	<b>Reference</b>
Ethylene Home-polymer	Dust	3 mg/m <sup>3</sup> (Respirable)	-	ACGIH
	Dust	10 mg/m <sup>3</sup> (total)	-	ACGIH
<b>Recommended monitoring procedures</b>				
If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to European Standard EN 689 for methods for the assessment of exposure by inhalation to chemical agents and national guidance documents for methods for the determination of hazardous substances.

## 8.2 Exposure controls

<b>Appropriate engineering controls</b>	If user operations generate dust, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.
<b>Individual protection measures</b>	
<b>Hygiene measures:</b>	Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
<b>Eye/face protection:</b>	Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mist, gases or dusts. Recommended: safety glasses with side-shields
<b>Skin protection</b>	
<b>Hand protection:</b>	Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this are necessary. For 8-hour full or splash contact with the material, use gloves made of butyl rubber with minimum layer thickness of 0.3 mm.
<b>Body protection:</b>	Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
<b>Other skin protection:</b>	Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. If used in solution, or mixed with other substances, contact suppliers of approved gloves and skin protection. This is only advisory and must be evaluated on a case-to- case basis by specialists.
<b>Respiratory protection:</b>	Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary or as backup to engineering controls. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. Recommended: organic vapor filter (Type A)
<b>Environmental exposure controls:</b>	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

## SECTION 9: Physical and chemical properties

### 9.1 Information on basic physical and chemical properties

<b>Appearance</b>	
<b>Physical state:</b>	Solid in pellet form
<b>Color:</b>	White or milky white
<b>Odor:</b>	None
<b>Odor threshold :</b>	Not applicable
<b>pH:</b>	No data available
<b>Melting point/freezing point range:</b>	No data available
<b>Boiling point:</b>	No data available
<b>Flash point:</b>	No data available
<b>Evaporation rate (Butyl acetate=1.0):</b>	Not applicable

<b>SAFETY DATA SHEET</b>		PR/EOHD/OHS/F-310	 بترو رابغ Petro Rabigh
<b>PRODUCT NAME : LOW DENSITY POLYETHYLENE</b>			
Reference No. SDS-09-0040	Revision No. 1.4 January 8, 2019	Page 6 of 9	

<b>Flammability (solid, gas):</b>	
<b>Burning time:</b>	No data available
<b>Burning rate:</b>	No data available
<b>Upper/lower flammability or explosive limits:</b>	Lower: 15 g/m <sup>3</sup> (average particle diameter=24 µm) Upper: 30 g/m <sup>3</sup> (average particle diameter=105 µm)
<b>Vapor Pressure:</b>	No data available
<b>Vapor Specific Gravity (Air=1):</b>	No data available
<b>Specific gravity (water =1.0)</b>	0.915-0.930 at 25 °C
<b>Solubility(ies):</b>	Insoluble in water.
<b>Partition coefficient; n-octane/water:</b>	No data available
<b>Auto-ignition temperature:</b>	>349 °C
<b>Decomposition temperature:</b>	No data available
<b>Viscosity:</b>	Not applicable
<b>Explosive properties:</b>	No data available
<b>Oxidizing properties:</b>	No data available
<b>9.2 Other information</b>	
None	

<b>SECTION 10: Stability and reactivity</b>
<b>10.1 Reactivity</b>
No specific test data related to reactivity available for this product.
<b>10.2 Chemical stability</b>
The product is stable under recommended storage conditions. When heated, decomposition gases may form explosive mixtures with air.
<b>10.3 Possibility of hazardous reactions</b>
Classification not possible
<b>10.4 Conditions to avoid</b>
Keep away from ignition sources, heat, sparks and flame, hot surfaces, accumulation of static electricity.
<b>10.5 Incompatible materials</b>
Oxidizing agents.
<b>10.6 Hazardous decomposition products</b>
Under normal conditions of storage and use, hazardous decomposition products should not be produced. Carbon monoxide and hydrocarbons may be generated by heat.

<b>12.4 Mobility in soil</b>					
<b>Conclusion/summary:</b>					
<b>12.5 Results of PBT and vPvB assessment</b>					
Not considered either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative at levels of 0.1% or higher					
<b>12.6 Other adverse effects</b>					
No known significant effects or critical hazards.					

## SECTION 13: Disposal considerations

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

### 13.1 Waste treatment methods

<b>Product</b>	
<b>Methods of disposal:</b>	The generation of waste should be avoided or minimized wherever possible. Significant quantities of waste product residues should not be disposed of via the foul sewer but processed in a suitable effluent treatment plant. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.
<b>Hazardous waste:</b>	The classification of the product may meet the criteria for a hazardous waste.
<b>Packaging</b>	
<b>Methods of disposal:</b>	The generation of waste should be avoided or minimized wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.
<b>Special precautions:</b>	This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.
